Meyler Campbell Invites Marie Curie Managers to Undergo Business Coach Programme

There are few more demanding jobs than providing high quality care for those affected by cancer.

As Meyler Campbell's adopted charity, Marie Curie and a number of its senior managers will be involved with the Meyler Campbell's Business Coach™ programme this year at no cost. The programme is designed to train people to coach in demanding environments.

Some Marie Curie managers have kindly volunteered to go on the course as coaching 'guinea pigs'. And one senior manager is to do the full Programme herself, so as to be able to strengthen coaching activity within Marie Curie. We look forward to a mutually rewarding experience.

Meyler Campbell also raised over £1,000 for Marie Curie last year by offering sample coaching at its Open Day. For a small donation, participants enjoyed either a private coaching session or feedback on the Myers Briggs Type Indicator (MBTI).

Marie Curie Cancer Care provides high quality nursing totally free to give terminally ill people the choice of dying at home supported by their families. At its 10 Marie Curie hospices, Marie Curie also actively promotes quality of life for patients and provides much needed support for their carers. The charity is also investigating the causes of cancer and better ways to treat the disease at the Marie Curie Research Institute.
